Kathy will add statement to the Z39.50 manual (webpages) regarding the core RDA elements.

### **Indexing**

\$2400 per index. series (most important--490/8xx), 490 will remain searchable as keyword. 246 |i present then |a does not index-- needs to be fixed.

### **SkyRiver demo**

Jon's comments read by Jennifer, Deb agreed with Jon's comments. Donna listed observations made by all three catalogers from LEPMPL. Marguerite tried using SkyRiver also. Joleen found one periodical

and one juvenile kit on SkyRiver, that were not on OCLC; she was able to “flesh them out” and use them. Kathy S. liked only having 1 or 2 choices rather than 20. None of us liked the RDA errors. It was agreed to take a pass on it at this time, will look at SkyRiver again in the future. Julie is keeping LEPMPL’s summary and examples to pass on to Innovative/SkyRiver.

#### **FAST headings:**

This is supposed to be a faceted search, but it is not usable at this point. Continue to strip out the FAST headings and revisit at the end of 2014.

#### **Television series/made-for-tv movies;**

Complete season or series should be 14 days. Leave at 420 minutes any other DVDs to circulate for 14 days (documentaries, etc.).

Made-for-tv movies, additional genre headings should be "television", ex: Christmas television programs.

#### **Quick Click**

B/T create a cart, enable the grids (\$100 set up fee), apply the grids consisting of the form, location, fund codes-- import into Sierra and it will create order records & a bib record (if necessary), then send order. monthly status report is a big time saver.

#### **Awards list**

Audie Awards-- Kathy S. will do this one (only placed on the audiobook-- performance award).

CMA -- Album of the year (Jennifer)

Horn Book deleted from list. Elizabeth Burr/Worzalla Award (WLA)

2014 Chair/secretary: Marguerite chair; Joleen, secretary.

Meeting schedule for 2014: Thursday, Feb. 20th @10:30am (IFLS); May, August, November. (Specific dates to be determined).
