Announcements from other committees

Per the Executive Committee's request: Julie will continue as Chair for 2017.

Current business:

Introduction of new members. Welcome! This is the largest the Committee has been in quite some time.

Templates

Discussion and field-by-field review of the kit and music CD templates and examples. Bridget will update with changes. Also, updated examples will be added to the audiobook template.

Marcive

The Automatic Authority Control has not been working properly due to a problem on the Sierra side. Subfield w appearing at the head of 4xx fields in authority records couldn't be read properly. This will be fixed in Sierra release 3.0, which we will move to in the next month or so. Until then, the subfield needs to be moved to the end of the field. Marcive will shift this for new records; Kathy will work on cleaning up existing problems.

MARC fields

380 standardized list: Pick one of the following three terms:

Motion picture

Television program

Made-for-TV movie

Singular form, no end-of-field punctuation, no |2. If your material doesn't fit this list, do not include a 380.

Owning vs. Lending

Jennifer has drafted a statement detailing the Committee's concerns should MORE switch from following owning library lending rules to following pick-up location lending rules. Discussion of various ramifications. One of the main issues is the effort involved in rewriting all of the loan rules. A location code could no longer be part of the loan rule. Each login location served would have to have all possible incoming itypes listed under each loan rule. Jennifer will circulate the statement to the Committee for comments and revise it. If we need to have this ready before our next scheduled meeting, we will have to call a special meeting to take formal action.
