Current business:

CABS service evaluation

- The Executive Committee wants this committee to evaluate CABS service to date. Information compiled will be presented at the May 21, 2021 Director's Council.
- Stats from various sources will be compiled to obtain the information
 - Number of bib records added compared to previous years
 - Survey to participants of each cataloging group regarding CABS services – response time, efficiency, appearance of records, etc.
 - Offer costs to CABS alternative if there are no contingency dollars to work with if budget shortfalls occur on local levels

MORE/IFLS staff work with “s” records in the past vs CABS bib record work
Get input from both Kathy and Bridget on how CABS has affected their work.

Survey will go out and need to be returned early April so that Lori can pull all information together in a draft report. Bib Committee will need to meet, review and approve report before May 7, 2021, to meet deadlines of other MORE committees.

ISBNs in serial records: recommendation to include current and previous years

The latest year must be the top ISBN listed (will affect catalog image display)

Committee recommends that 3 years of ISBNs be included in serial records.

A qualifier with year needs to be added to each ISBN

Approval of recommendation: motion by Meagan, second by Jon. Motion approved

Documentation on MORE website will be updated to reflect this cataloging change.

Performers and use of 100/110 vs 700/710 fields

Music CD performers (not composer) following standard cataloging practices are put in a 700/710 field. But 700/710 fields do not show up on the OPAC. Per our cataloging vendor it is not possible to display this field at this time. The only way to display the performers in our public access catalog is to use the 100/110 field.

The committee recommended that Performer 700/710 fields will now be 100/110 fields so as to improve the patron experience in BiblioCore searches.

Approval of recommendation: motion by Meagan, second by Jenny K. Motion approved.

“a novel” in 245|c vs 245|b

A novel by “so-and-so” is considered a phrase and should go in a 245|c

“Title: a novel” is considered part of the title and should go in a 245|b

This is just a clarification of best MORE practices and should be noted on the website and sent out via the MORECat list.

Subject/Genre headings.

Use of 655_7 Novels. |2|cgft

This is a very broad genre heading and should be removed from records going forward and in record clean-up.

Genre use in records to be revisited at our next meeting

Some genre headings for possible consideration

Illustrated works

Educational works

Patterns

Pattern books

Recipes

The MORECat list would be a good secondary avenue to circulate genre use related questions.

“Coming soon” information in 655 fields – do we need to keep using with the Coming Soon OPAC search filter.

Lori to poll library staff to determine how and if the Coming Soon 655 field is used.

Question to be revisited at next meeting taking polling results into consideration.

Overdrive digital magazine records; should local records be added?

If records added to Sierra patrons would have access through the OPAC grouped alongside the physical magazines.

We would need a digital magazine format code added before this could be done.

Flipster magazines could be added as well, but would be a linked record like Freeding ebooks are.

Committee approved adding digital magazines to Sierra.

Overdrive magazine records would require cleanup before adding. Slow rollout okay as records are fixed. Do not add a 922 field to record.

Committee approved adding digital magazines to Sierra.

Next meeting date: Exact date to be determined. Will be before May 7, 2021 so that CABs service evaluation may be presented to the Executive Committee for the May 2021 Director’s Council.

Madeline Page will email committee with date or dates for meeting.

Lori will email MOREcat procedural decisions that were approved at today’s meeting.

Meeting adjourned 11:01 am

Minutes respectfully submitted, Meagan Bennett -Bloomer
