Wisconsin Library Association
2015-2017 State Budget Priorities

1st Priority:
## Public Library System Aid and Library Service Contracts

A.

At a minimum, maintain the level of funding for both public library system aid and library service contracts in the Governor's proposed budget.

> **Public Library System aid:** Current amount $15,031,000 SEG in each fiscal year

> **Library Service Contracts:** Current amount $1,167,200 SEG in each fiscal year

Current law (43.24 (6), Wis. Stats.) requires the Department of Public Instruction (Division for Libraries and Technology) to set public library systems funding at a 13% index level of the previous year's local and county expenditures in its biennial budget request.

Current funding is at 6.9% index level. DPI did request an additional $13,879,500 FY 16 and $14,168,400 FY17 to meet the 13% requirement, but did not request any additional library service contract funding.

A network of library systems serves 381 local public libraries across the state.

Indianhead Federated Library System(IFLS) supports ten counties in northwest Wisconsin, including Barron, Chippewa, Dunn, Eau Claire, Pepin, Pierce, Polk, Price, Rusk, and St. Croix counties. There are 54 public library members in the IFLS system, assisting a population of 459,247 with 226,596 registered borrowers. System services keep local library doors open.

B.

Library Service Contracts between:

- **DPI and Wisconsin Talking Book and Braille Library**
- **Cooperative Children's Book Center**
- **Two inter-loan contracts with**
    - **Milwaukee Public Library**
    - **UW-Madison**

These contracts provide access to specialized library materials and information not available in local public libraries.

2nd priority:
BadgerLink and Newsline for the Blind @ http://badgerlink.net/

Approve the Governor's proposed increase in funding for Badgerlink and Newsline for the Blind to maintain the current level of access to services and cover increased cost for the contract with the Wisconsin Newspaper Association.

Current annual amount: $2,479,000 SEG

Requested amount: $2,965,400 (2015-16) SEG

$3,025,800 (2016-17) SEG

- More than 130 million searches are conducted annually using BadgerLink and Newsline resources.
- The materials are provided exclusively for use by all Wisconsin residents via the Internet and are not available through regular search engines such as Google.
- BadgerLink offers 46 databases that help users prepare for interviews and build job skills, make smart health decisions, aid in student success, stay competitive in the marketplace, and connect with their roots, all at a huge cost savings to local communities.
- It is estimated that individual libraries, schools, universities and other organizations would pay approximately $73-75 million to directly purchase BadgerLink databases.

Library Perceptions

Libraries play an important role in our communities

- 95% of Americans ages 16 and older agree that materials and resources available at public libraries play an important role in giving everyone a chance to succeed;
- 95% say that public libraries are important because they promote literacy and a love of reading;
- 94% say that having a public library improves the quality of life in a community;
- 81% say that public libraries provide many services people would have a hard time finding elsewhere.

Libraries are also particularly valued by those who are unemployed, retired, or searching for a job, as well as those living with a disability and internet users who lack home internet access:

- 56% of internet users without home access say public libraries' basic technological resources (such as computers, internet, and printers) are "very important" to them and their family, *compared with 33% of all respondents.*
- 49% of unemployed and retired respondents say librarian assistance in finding information to be "very important," *compared with 41% of employed respondents.*
- 47% of job seekers say help finding or applying for a job is "very important" to them and their families.
- 40% of those living with a disability say help applying for government services is "very important," *compared with 27% of those without a disability.*

http://libraries.pewinternet.org/2013/12/11/libraries-in-communities

Younger people continue to recognize the value of libraries

- As a group, those under 30 are as likely as older adults to have used a library in the past 12 months, and more likely to have used a library website.
- 62% of Americans under age 30 agree there is "a lot of useful, important information that is not available on the internet,"

http://www.pewinternet.org/2014/09/10/younger-americans-and-public-libraries

Supporting Public Libraries Strengthens...

Education

by... Providing Access to Online courses through:
- Public Internet computers
- Wireless Internet access
- Staff for proctoring exams

by... Offering research services:
- Access to online databases
- Personalized help finding information
- Homework help

by... Encouraging lifelong learning:
- Book clubs
- Civic meetings
- Other programs including genealogy, gardening, local history, and art

Offering access to anyone who needs it, libraries provide a safe and trusted place where community members can continue their education at every step during their lives

Employment

Offering free access to:
- Resume writing software
- Databases for job searching and career development
- Online & print study tools for GED, ACT, TOEFL, GRE etc.

Providing support to job seekers with:
- Available computers & Internet access
- Teaching job search strategy workshops

Providing help navigating government and private programs for people in between jobs or switching careers

Libraries saw an increase in visitors when then economy declined as people went there for help searching for new jobs, coping in between jobs, and educating themselves for the next job

Economic Development

- Returning $4.06 on every dollar invested in public libraries
- Bolstering the community's well-being when they have a library as part of their strategic plan.

Providing library use to small business and entrepreneurs for:
- Research information & assistance
- Meeting facilities
- Employee training opportunities

Being an important tool for business to attract desirable employees

Public libraries are natural partners in local economic development efforts. Libraries can positively impact local economic development efforts and produce mutually beneficial results for both libraries and the business community.

Early Childhood Literacy

Promoting reading with preschoolers:
- 1000 Books Before Kindergarten Programs
- Storytimes
- Outreach to WIC clinics, Headstart, and more

Providing early literacy play areas:
- Supports developmental milestones
- Encourages interaction & conversation
- Helps young children develop narrative & social skills

Offering programs, books and other resources to allow preschoolers the chance to explore STEAM (Science, Technology, Engineering, Art and Math) concepts.

Supporting early literacy skills is a priority for both the Governor and the President. Libraries are uniquely positioned to provide young families with developmentally appropriate programs and materials to foster these skills, and need support to continue.

Serving public libraries in west central Wisconsin, Indianhead Federated Library System has 54 public library members assisting a population of 459,247 with 226,596 registered borrowers
