

LibraryIQ Roadmap Q3 2022 - Q3 2023

Releasing Q3 2022:

IQ Shopping Cart: Using the selection feature, choose titles and add them to your IQ Shopping Cart. Once titles have been added, download the IQ Shopping Cart to CSV and send to your vendor of choice for purchasing.

Integration between LibraryIQ and Brodart's Bibz enables Brodart customers to send an IQ Shopping Cart to Bibz seamlessly.

Releasing Q4 2022 - Q1 2023:

Enhanced Homepage: Quickly see and navigate to primary focus areas within the LibraryIQ Platform via the homepage.

MetricsIQ (Updated): Track metrics and performance indicators by entering them directly into the LibraryIQ Platform. Security roles and authorization allow data entry across departments and/or branches with centralized oversight and control.

Diversity, Equity & Inclusion (DEI) Analysis: Using industry standards and suggestions, quickly identify diverse titles available in your collection and titles that should be considered for purchase. Filter by DEI category to view and drill down into specific areas of the collection. Monitor performance of your DEI collection over time.

PatronIQ Advanced*: Compare the demographic profile of the library's service area to your patrons as well as the physical circulation generated by each demographic group. Understand common behaviors of each demographic group to determine how to increase library use and where to provide additional services. LibraryIQ experts recommend actions based on the characteristics of each demographic group.

Releasing Q3 2023:

Collection Rebalancing: Recommend item transfers between branches.

*May be subject to additional fees
