

Online Patron Registration Policy Recommendation

Recommended to MORE Directors Council by MORE Executive Committee
November 2, 2018

Patrons may register for a MORE library account online for access to non-physical electronic resources. MORE Directors Council will determine the electronic resources to which these patrons have access.

To register online, patrons must provide:

- Full name
- Wisconsin residential address
- County of residence
- Birthdate

Patrons may have a MORE-member library card with full privileges or an account for online access to electronic resources only. Library and / or system staff will make a reasonable effort to delete any record created online via patron registration that is determined to already be associated with a full MORE-member library cardholder.

Patrons who register online may later get a MORE-member library card with full privileges by completing the standard registration process as outlined in [MORE's Patron Registration Policy](#).

Patron records created via online patron registration will be deleted 1 year after the date of last use.
